Annex B: AI Declaration

Note: The use of AI is inevitable due to the nature of the problem statement, but must be adequately credited in the AI declaration box given below:

Check all relevant boxes:

One or more Generative AI tools were used in the process of creating this submission. If you tick this box, please acknowledge the following:

I have reviewed all AI-generated content I have incorporated, consulted, or otherwise used in the production of this submission, and take full responsibility for the accuracy and quality of said AI-generated content which I have chosen to use, with the understanding that AI-generated content can be unreliable.

I have used AI-powered translation tools in preparing this submission, I declare my use below. I understand that a transcript is not required for translation tools; however, I should retain evidence of use in case verification is needed.

<i>[Insert your declaration]</i>	
Purpose of AI usage	Place in Submission where AI is used
<i>E.g. Generation of visuals to demonstrate the physical appearance and qualities of our proposed product</i>	<i>E.g. Slide Deck: Slide 12 Video: 3.48</i>
<i>E.g. Giving prompts to AI to find target audience/persona, market trends and consumer data/statistics/preferences for product ideation</i>	

I have provided a transcript of my AI use (including any AI-generated summaries like Zoom’s meeting summaries) *either* as an attachment to this form (Copy-and-Paste transcript) *or* via the weblink(s) below:

<i>[Insert link(s) to Generative AI transcript, generated by Generative AI tool]</i>
--

We hereby declare that the information we have provided in the form above is true and accurate to the best of our knowledge.
